

Take the Ten Toes Express to Francis Park

TOTAL WALK DISTANCE: 1.85 miles or less

Francis Park in the St. Louis Hills neighborhood offers wide open space in a peaceful tree-shaded neighborhood. There are no hills! The land was a gift to St Louis City from David Francis, director of the 1904 World's Fair. Residential development began in the 1930's. The park is almost square with a church at every corner. A complete walk around the park is 1.25 miles but you may shorten it .25 mile by cutting across the middle. The park is a short ride bus ride away from Shrewsbury Station and .3 mile from Ted Drewes custard stand.
