

Come and See the Gateway Station (Amtrak) on the Ten Toe Express

TOTAL WALK DISTANCE: .25 mile

The completion of the long-awaited Multi-Modal Transportation Center at Civic Center Metro Station is worth a celebratory walk - no more Amshack! Its unusual elongated z-shape combines Amtrak and Greyhound with easy access to MetroLink and MetroBus, offering great views of downtown. It is a stunning welcome for visitors to St. Louis and a dramatic welcome home for St. Louisans. (Passenger boarding areas are not open to the public, but you may walk through and around this stunning building.)
